DETAILED ACTION

Formal matters

1. The Art Unit location of your application in the USPTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1649.

Response to Amendment

2. Claims 1, 2 and 11 have been amended, claims 5 and 8 have been canceled and claims 24-29 have been added as requested in the amendment filed on July 25, 2005. Following the amendment, claims 1-4, 9-11 and 24-29 are pending in the instant application.

Claims 1-4, 9-11 and 24-29 are under examination in the instant office action.

- 3. The Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 4. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.
- 5. Applicant's arguments filed on July 25, 2005 have been fully considered but they are not deemed to be persuasive for the reasons set forth below.

Claim Rejections - 35 USC § 112

6. Claims 11 and 24-27 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a composition as recited in claim 1 does not reasonably provide enablement for a composition comprising a host cell derived from transgenic animals or

Application/Control Number: 09/463,874

Art Unit: 1649

plants for those reasons of records as applied to claim 11 in section 4 of Paper mailed on March 22, 2005.

Applicant submits at page 5 of the Response that "the compositions of the invention do not require one to make transgenic cells but rather to simply use the cells". Applicant's arguments have been fully considered but are not persuasive because claim 11, as written expressly requires the production of transgenic animals or plants based on the limitations present within the claim. One skilled in the art readily appreciates that art of production and use of transgenic animals or plants is not routine and easily predictable at present, as it was not at the time of filing of the instant application. Furthermore, the intend of using the transgenic animal or plant cells as host cells is clear from the presence of these limitations because the instant claim recites "an animal cell", "an insect cell" and "a transgenic animal cell", which appear to be specific embodiments encompassing "an animal cell".

Thus, for reasons set forth in the previous office action and reasons above, the instant rejection is maintained.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 7. Claim 28-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 8. Claim 28 is vague and indefinite in so far as it employs the term "huntingtin exon 1 protein" as a limitation. Because the instant specification does not identify that property or

Art Unit: 1649

combination of properties which is unique to and, therefore, definitive of a "huntingtin exon 1 protein", an artisan cannot determine if a compound which meets all of the other limitations of a claim would then be included or excluded from the claimed subject matter by the presence of this limitation. Furthermore, because the instant claims recite "huntingtin exon 1 protein" and also "huntingtin (poly)peptide" as in claim 1, for example, the metes and bounds of each limitation wit respect to structure or recited proteins/(poly)peptides cannot be positively defined.

9. Claim 29 is rejected being dependent from indefinite claim.

Conclusion

- 10. Claims 1-4 and 9-10 are allowed. Claims 11 and 24-29 are rejected.
- 11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
